

WikiHist.html:

English Wikipedia's Full Revision History in HTML Format

Blagoj Mitrevski, [Tiziano Piccardi](#), Robert West

Can we rely on Wikitext to get the links on a Wikipedia page?

Problem

`"Niue"` (`{{lang-niu|Niu̯e}}`) is an `[[island country]]`.

Modules not available in the dump (LUA)

`Niue` (`Niuean`: `<i lang="niu">Niu̯e</i>`) is an `island country`.

Implement.

Multiple Docker instances

HTML Full history

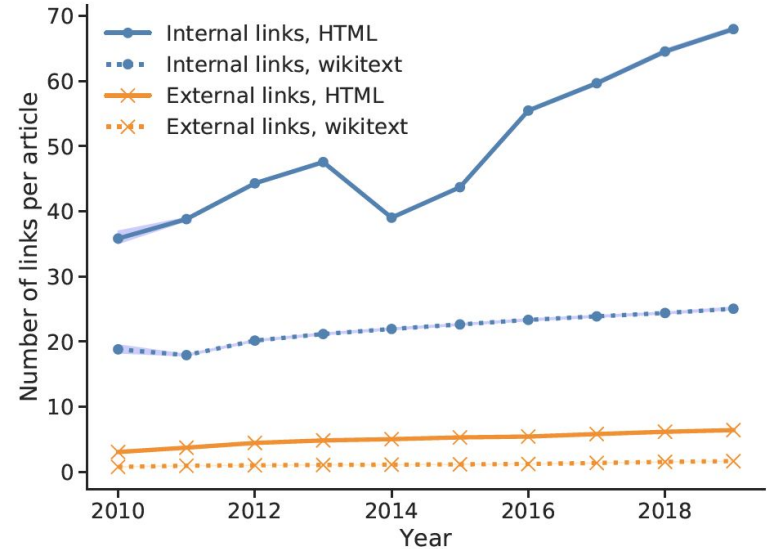

Page rendered by using the correct template revision

What did we discover?

Clickstream shows transitions that are not possible on the Wikitext links network

In average in 2019 a page contains 3 times the number of links visible in Wikitext
